CH TRADERS is an industrial petroleum products trading company, established in 2010. We distribute premium industrial petroleum products in the major cities of the GCC Countries and India. After a decade of constant grinding toiling in the industry, we can proudly state that we are one of the pioneering traders of industrial petroleum products and we cater to all major lubrication factories, power plants, demolition partners, paint manufacturing industries, etc.. We market and distribute products with our in house storage and distribution facilities and are capable of taking challenges to meet the demands of supply.

OUR PRODUCTS

- BASE OIL
- BIODIESEL
- FUEL OILS
- LDO
- BITUMEN
- MTO
- ENGINE OIL
- MHO

MISSION

products through our comprehensive supply and marketing networks on time as promised. We always keep an ethical standard to keep our professionalism intact and treat each of our clients with conviction and integrity.

VISION

We are headed towards the goal to be the biggest distributors of petroleum products in india. We also look forward to widen our horizon, each and every day by adapting to the changes in the industries as fast as possible.

MESSAGE FROM CH TRADERS

ASIF C MANAGING DIRECTOR

The last couple of years brought a new perspective to all of us as we witnessed humanity's greatest setback of the twenty-first century. We panicked, we got raging, but in the end we collectively pulled through as we always did.

In this new age, where we are moving on to a new norm, we are dedicated to face every challenge and hurdles that may come our way with the same focus and conviction like we used to do. Whatever happened in these years will not affect our future as we have a strong base of human resources behind us and the years of experience we have in the industry we work in.

Since the beginning of CH TRADERS we have never shied away from widening our horizon and our basic philosophy is to provide our clients with top quality products. To widen our consumer base and to provide them with the best products, we are launching our own Engine Oil brand, Revol Engine Oils. We believe that if we move forward with the same business philosophy as we always did we can write a success story with Revol as well.

A close-up, low-angle shot of a car engine, focusing on the metallic components and hoses. The lighting is dramatic, with warm, golden-yellow highlights on the engine parts and a cooler, blue-toned background. A large, solid orange rectangular overlay is positioned in the center of the image, featuring the word "PRODUCTS" in a bold, white, sans-serif font.

PRODUCTS

ENGINE OILS

Engine Oil is the newest member from CH TRADERS family, engine oil is turning the wheels of the current engine oil industry in a technologically advanced path. CH TRADERS is proud to be a part of this revolutionary world, where the only thing constant is the fact that everything changes continuously. We use today's technological advancements to our advantage, which is why we are able to develop the perfect automotive lubricants to meet today's requirements precisely.

ENGINE OILS product range is designed to meet the specific needs of various automobiles precisely. Manufactured from UAE, the products meet the API SF/SJ/SL/SM/SN performance standards. Products are formulated from quality base stocks added with modern performance additives to give the engine extra protection even in adverse conditions. We are proud to state that Engine Oils meets or exceeds today's industrial standards.

BITUMEN

Due to its waterproofing and adhesive properties, bitumen is majorly used in road construction, roofing, waterproofing, and other applications. The term bitumen refers to a substance produced through the distillation of crude oil. We distribute high quality bitumen for many popular industries and construction groups in India.

MTO (MINERAL TURPENTINE OIL)

MTO is Used as an extraction solvent, as a cleaning solvent, as a degreasing solvent and as a solvent in Aerosols, Paints, Wood preservatives, Lacquers, Varnishes, and Asphalt products MTO is mainly used as Raw Material

MHO (MIX HYDROCARBON OIL)

Mixed Hydrocarbon Oil is a valuable resource used in distillation processes, yielding a wide range of products. It finds application in various industries such as aluminum rolling, printing ink production, glass molding, and as base oils.

BASE OIL

Base oils are used to manufacture products including lubricating greases, motor oil and metal processing fluids. Different products require different compositions and properties in the oil, CH traders assures accuracy and delivers quality base oil. One of the most important factors is the liquid's viscosity at various temperatures. We have advanced technological equipment to support us with this process.

BIODIESEL

Like the name suggests Biodiesel is a biodegradable fuel extracted from animals and plants. Biodiesel meets both the biomass-based diesel and overall advanced biofuel requirement of the Renewable Fuel Standard. Biodiesel is also considered as a renewable substitute to fossil fuels. CH traders delivers Biodiesel upon prior - orders which can be used as Fuel filters, Heating oils, Oil, Spill cleanups, Biodiesel electricity generators etc.

FUEL OIL

Fuel Oil can be also considered as a byproduct from the crude oil distillation. Fuel oil, also called furnace oil. It is used primarily for steam boilers in power plants, aboard ships, and in industrial plants. Commercial fuel oils can be precisely blended with other petroleum fractions to produce the desired viscosity and flash point.

LDO (LIGHT DIESEL OIL)

Light diesel oil, or LDO, is a blend of components from the distillation process of crude. This can be used as non-automotive diesel fuel that is mainly used in low RPM engines and equipment. Apart from low RPM Engines, LDO is also used for Boilers, Furnaces, Air pre-heaters, Lift irrigation pump sets, Fertilizer plants, Bunker, DG sets etc.
